

# The Proclamation

The governor of OL'Tables has made a new proclamation, listen people!

Arnold Abraham - 12. Januar 2021

## Proposal

The governor stands at the harbour of Ol'Tables and wants to read out loud the new proclamation: „We the people of...

\*a massive wind from the sea tears the proclamation out of the governor's hand\*

„By the royalty of England, come back you piece of paper!“ But the proclamation landed in the nearby water and the ink faded.

You were also there to hear the proclamation. The governor spots you as he is looking through the crowd desperately for help.

He immediately gives you the job to help him out a last time!

He wants to get rid of the criminals once and for all and make a public notice of which crimes will be punished and how.

## The task: The book of law

The book of law is just a table. Help the governor to make sentences out of it!

Crime	Punishment	Fine
Smuggling	Hanging	-
Theft	Remove main hand	-
Vandalism	25 Whiplashes	200 Doubloons
Brawling	10 Whiplashes	500 Doubloons
Murder	Decapitation	-

Crime	Punishment	Fine
Harassment	Public humiliation	250 Doubloons
Boat theft	Remove both hands	500 Doubloons
Kidnapping	Decapitation	-
Piracy	Hanging	-
Burglary	Jail 1 year	750 Doubloons

---

## Task One

Bring the table in multiple sentences of the following structure

„From the current day [CRIME] will be punished with [PUNISHMENT] and a fine of [FINE] doubloons .“

The result table has the column name of „Current Law“

Use only 1 query to rule them all.

Use the attached Database ,BookOfLaw.db‘.

### Tips

- Watch precisely at the case sensitivity of the final sentence & the tables records.

## Task Two

Such a hassle, the governor made a mistake! Make sure to enhance your query by increasing all fines an increase of 100%.

## Task Three

Oh no, this old drunken governor forgot about the costs of each fine.. Loan cost for the guards and so on. Make sure to even increase the fine by 45% of the original value and decrease it by 20%. Don't only make an increase of 25%! Write it as a full expression.
